

SPACE MARINES

HOR

CODEX: SPACE MARINES

This Team List uses the special rules and wargear lists found in Codex: Space Marines or latest publication. If a rule differs from the source, it will be clearly stated.

The points are intended for the model with their base equipment listed.

FACTION KEYWORDS

All models in this list have the **Imperium, Adeptus Astartes, <Chapter>** keywords. All models in your kill team must use the same <Chapter> keyword.

EXPERIENCED LEADER

Special choices that share ALL of their keywords with your team leader may be taken as Core. Double the model limit for Core models that share ALL of their keywords with your Team Leader. Note that, for example, a Vanguard Veteran Sergeant with a Jump Pack can only take Vanguard Veterans who also have Jump Packs as Core, as they share the FLY keyword. This does not affect model availability. For the purposes of this rule ignore the CHARACTER and SERGEANT keywords.

TELEPORT HOMER

If your team contains any models with the Teleport Homer ability, you may purchase a single teleport homer for free. Further homers cost 5 pts each. It follows the rules for deploying and enemy deactivation as per the codex. When you use the teleport homer, any friendly models with this ability *may* make an emergency teleport as described in the codex. It is then removed from play.

MODEL AVAILABILITY

You must adhere to the following model requirements when building your Kill Team:

- 1 Team Leader model
- 1-20 Core models
- 0-3 Special models

CHAPTER TACTICS

You can use the Chapter Tactics found in the Space Marines codex, with the following amendments:

A Salamanders team may pick up to five models, plus your Team Leader, to gain their Chapter Tactic. Other models are still Salamanders, even though they cannot use the Salamanders' reroll.

An Iron Hands team may take a Tech-adept as a Team Leader. It can also be upgraded to a Forge Father for 20 pts, gaining two extra Wounds and one extra Attack.

Alternatively, you may use a set of chapter tactics found below.

ANGELS OF DEATH

Apply the rule as described in the Codex with the following exceptions:

Bolter Discipline: apply this rule to INFANTRY models only.

Doctrines: replace the Doctrines rule with the following. At the start of any battle round you may declare that one of your Doctrines is active. Choose Devastator, Tactical or Assault, that doctrine is active for this Battle Round. You may only choose each Doctrine once per battle, and you need to activate them in order: Devastator>Tactical>Assault. Chapter-specific bonuses (like Ultramarines' Sons of Guilliman) are NOT allowed while the relative Doctrine is active.

Heralds of Ruin Expanded Chapter Tactics

Red Scorpions

Purity Above All

Any Leader with the SERGEANT keyword may carry a Narthecium for 15 points. If a Narthecium is taken this way, you cannot take an Apothecary.

Carcharodons

Reavers of Outer Darkness

Any Tactical Marine or Intercessor may exchange their bolter or bolt rifle with an Astartes Chainsword. Any Tactical Marine or Intercessor may, in addition to their other wargear, purchase an Astartes Chainsword for 1 point or a Chainaxe for 2 pts. Furthermore, enemy models within Engagement Range of a model with this Chapter Tactic subtract 1 from their Leadership.

Howling Griffons

Hold To Your Oaths!

HOWLING GRIFFONS may re-roll 1's to hit in the Fight phase if there are more enemy models than friendly models engaged in that close combat. Furthermore, the range of all Aura abilities is increased by 3".

Fire Angels

No Mercy From the Edge of the Blade

Models with this Chapter Tactic gain a 6+ Invulnerable save. In addition, any FIRE ANGELS model carrying an Astartes Chainsword may upgrade it to a Power Sword for 3 points.

Marines Errant

Void Warriors

All models with this Chapter Tactic may re-roll failed armour saves against weapons that have a random number of shots. In addition, the Frag Grenades of models with this Chapter Tactics are Strength 4.

Raptors

Legendary Marksmen

In the Shooting phase, a RAPTORS unit may choose to treat its Bolt weapon as Heavy 1 (decide before firing). If it does so, on an unmodified wound roll of 6, treat that hit as though it had an AP of -3. When firing the bolt weapon this way, the model does not suffer penalties to their hit rolls unless they are caused by their own weapons. Furthermore, RAPTORS units add +2 to their armour saves for being in cover, rather than +1, for the first game turn only.

Exorcists

Armour of Contempt

EXORCISTS units that are chosen as targets of psychic powers may attempt to deny one psychic power per Psychic Phase, but they must subtract 1 from the roll. Additionally, LIBRARIAN models may re-roll the dice to deny the witch. Furthermore, each time a model with this Chapter Tactic suffers a Mortal Wound from a psychic power roll a D6. On a 5+ the Mortal Wound is ignored.

Mantis Warriors

The Path Foreseen

Infantry models without the FLY or TERMINATOR keywords with this Chapter Tactics ignore the negative effects of terrain (such as slower movement, penalties etc). Furthermore, when a MANTIS WARRIORS model successfully makes a Charge from any terrain that would grant it a cover bonus of any kind, it gains +1 attack until the end of that turn.

Executioners

Head-Takers

If a model with this Chapter tactics roll a 6+ to wound in the Fight phase, the Damage characteristic for that hit is increased by 1. Furthermore, models with this Chapter Tactics ignore penalties to their Leadership and their To Hit rolls for melee attacks that are caused by enemy abilities and/or psychic powers.

Red Hunters

Mnemonic Redaction Protocols

At the beginning of the game, roll a D6 and consult the following table. All RED HUNTERS units gain the listed ability for the duration of the game.

- 1: Affected units may fire Rapid Fire weapons after advancing.
- 2: When affected units are charged, they fight with +1 attacks in the subsequent Fight phase.
- 3: Affected models advance 6" rather than 3".
- 4: Affected models improve their Strength by 1 in any turn in which they successfully charge.
- 5: Affected models may re-roll failed Hit Rolls when firing Overwatch.
- 6: Mind Wiped; no special ability.

Star Phantoms

Lords of Ruin

You can declare that you will use this Chapter Tactic once per battle, during the Shooting Phase. Until the end of that shooting phase, all friendly units with this Chapter Tactic add 1 to their To Hit rolls. In addition, STAR PHANTOMS units hit on 5+ when firing overwatch.

Minotaurs

Brazen Fratricide

MINOTAURS units add +1" to their advance and charge rolls. Furthermore, when attacking any model with the ASTARTES keyword in the Fight phase, on a hit roll of 6, a MINOTAURS unit may make an extra attack with the same weapon. These bonus attacks cannot generate further bonus attacks.

Sons of Medusa

Strength of the Machine

SONS OF MEDUSA kill teams may take a Tech-Adept as a team leader. Furthermore, all SONS OF MEDUSA units gain a 6+ invulnerable save. Finally, any SONS OF MEDUSA unit with the ability to repair vehicles, may use it on friendly models with this Chapter Tactic to restore wounds lost earlier in the battle, even if it's not a VEHICLE.

Novamarines

Xeno Hunters

Units with this Chapter Tactic can re-roll failed wound rolls of 1 when attacking a model that do not have the IMPERIUM or CHAOS keyword. If another source already grants them the ability to re-roll wound rolls of 1, they can re-roll failed hit rolls of 1 as well.

Fire Hawks

Shock and Awe

FIRE HAWKS kill teams add Hand Flamer to the Pistols list. Furthermore, when a FIRE HAWKS unit with the FLY keyword successfully charges, roll a d6. On a 5+, one of the enemy models that was charged suffers a Mortal Wound.

Astral Claws

Rapid Attack and Encirclement

Enemy units that targets with a shooting attack a model with this Chapter Tactic that advanced in their last movement phase suffer a -1 penalty to their hit rolls. Furthermore, ignore Leadership penalties from all sources for Team Leaders with this Chapter Tactic.

Black Dragons

Curse of the Dragon

BLACK DRAGONS units that do not have close combat weapons (i.e. chainswords, power weapons, etc) treat any attack that rolls an unmodified roll of 6 to wound as being AP -2 in the Fight phase. If a model has a melee weapon, it gains +1 Strength in any turn in which they charge.

Storm Wardens

Unparalleled Duelists

Any model with this Chapter Tactic that can take a Power Sword may take a Relic Blade instead (paying the cost of a relic blade rather than a power sword). Furthermore, if a model with this Chapter Tactic is in a close combat that involves only itself and a single enemy model, that enemy model must re-roll successful save rolls against that model's attacks.

Soul Drinkers

Cold and Fast

SOUL DRINKERS units that roll an unmodified roll of 6+ to hit with a Bolt weapon with the Rapid Fire rule or the bolter component (and only the bolter component) of a combi-weapon that is firing at less than half range may make an extra attack with that weapon. These bonus attacks do not, themselves, generate bonus attacks. Furthermore, SOUL DRINKERS units Consolidate up to 4" and can move in any direction, rather than toward the nearest enemy unit.

Blood Ravens

Knowledge is Power

When a BLOOD RAVENS opponent spends a Command Point, roll a d6. On a 1-4, nothing happens. On a 5, the BLOOD RAVENS kill team gains a Command Point. On a 6, the BLOOD RAVENS kill team gains a Command Point and the stratagem the opponent was trying to use fails unless that opponent spends another Command Point. Furthermore, PSYKERS with this Chapter Tactic add +1 to the roll when attempting to manifest psychic powers.

Iron Snakes

The Strong are Strongest Alone

TACTICAL SQUAD, ASSAULT SQUAD and INTERCESSORS unit with this Chapter Tactic add +1 to their hit rolls when in close combat if there are more enemy units than friendly units involved in that close combat. Furthermore, APOTHECARY models with this Chapter Tactic add +1 to the roll when trying to cure a model.

++Honoured Relics of the Chapters++

Only one of each of the following items may be taken in any Kill Team. Weapon profiles are included below.

The Wings of Night (5 pts)	Raven Guard model with a Jump Pack only. Once per game, the bearer can fire the built-in smoke launchers. These works exactly as the Smoke Launchers Stratagem in Codex: Space Marines.
Gladius Honorifica (7 pts)	Ultramarines model only. A deceptively short stabbing sword, held in the offhand to feint and disembowel.
Phalanx Shield (15 pts)	Imperial Fists leader without Jump Pack or Bike only. Forged on the Imperial Fists' legendary battle station, this mobile bulwark protects its bearer from all but the heaviest firepower. The bearer gets a 4+ invulnerable save, increase the Armour Save by 1, may never advance further than 3" and reduces its Movement characteristic by 1". Decrease the AP of any shooting attack against this model by 1 (eg AP -1 becomes AP0).
Fist of Vengeance (17pts/5pts)	Crimson Fists non-primaris leader (without/with terminator armour) only. Taken from a fallen battle-brother on the long trek to New Rynn City, this power fist thirsts for bloody revenge. Replaces a melee weapon of your choice.
Auxiliary Ramjet (10 pts)	White Scars BIKER model only. Some White Scars go to quite outrageous lengths to ensure they are first into the fray, modifying their bikes to reach death-defying velocities. Once per game, this model may charge after Advancing earlier in the same turn.
Breath of the Forge (15 pts)	Salamanders leader or techmarine only. Replaces a ranged weapon of your choice. When not in active service, this beautifully wrought flamer hangs in the workshop of the Forgefather, steeped in the fire and determination of the Chapter's heart.
Ice-Cold Logician (8 pts)	Iron Hands only. One Iron Hands marine in a hundred's actions are truly ruled by logic and probability alone, even at the expense of coming to the aid of their embattled brothers. This model may target enemy models with shooting attacks even if they are within Engagement Range of friendly models.

Armoury Relics Profiles

Name	Type	Range	Strength	AP	Dmg	Abilities
Gladius Honorifica	Melee	-	User	-1	1	If the bearer makes all of its Attacks in the Fight phase with a Power weapon (other than a Power Fist), it may make an additional D3 attacks with this weapon. The bearer must subtract 1 from their hit rolls when attacking with this weapon, except against ORKS.
Fist of Vengeance	Melee	-	X2	-4	2	Each time this weapon fires, roll two D3. You may choose which of those D3 results will be the AP and which one will be the Damage value. The sum of those dice plus one will be the Strength of the weapon. This weapon hits automatically.
Breath of the Forge	Assault 4	8"	*	*	*	

++Armour Upgrades++

*A team may have any number of any of these items,
but a model may not take more than two unless it is your Team Leader.*

Purity Seals (8 pts)	<p>“Let the Emperor shield thee, let the Emperor guide thee hand, Let the Emperor smite thee enemies”</p> <p>Once per battle round, the bearer may reroll a single failed roll to Hit, Wound, Armour Save or Leadership test.</p>
Bionics (5 pts)	<p>Parts of the battle-brother’s body have been replaced or augmented with unfeeling adamantium and steel.</p> <p>If this model suffers a wound or mortal wound, roll a D6. On a 6+ the wound is not lost.</p>
Teleporter (5 pts)	<p>Model in Terminator Armour only. Short jumps directly through the Immaterium are extremely dangerous, but the element of surprise cannot be overstated. Instead of moving in the Move phase, this model can teleport. Roll 2D6 and move the model that number of inches in any direction as though it had the FLY keyword. This still counts as moving.</p>
Suspensors (10 pts)	<p>This heavy weapon specialist has augmetics or modified armour to better brace for firing.</p> <p>The bearer may ignore the -1 penalty to Hit when firing a Heavy weapon after moving, but must halve the weapon’s Range to do so.</p>
Armour of Alacrity (20 pts)	<p>Leader in Power Armour only. This light but tough power armour allows a greater range of motion without compromising on protection.</p> <p>The bearer may re-roll armour saves, and adds +2” to it Movement characteristic unless it has the FLY or BIKER keywords.</p>
Refractor Field (10 pts)	<p>The model gains a 5+ Invulnerable Save</p>

++Additional Wargear++

These items do not replace anything and may be taken by any number of models.

Auspex (7 pts)	After your opponent sets up a unit that is arriving on the battlefield as reinforcements within 12" of the model holding the Auspex, your models within 6" of the Auspex owner can immediately shoot at that enemy unit as if it were the Shooting phase, but you must subtract 1 from your hit rolls when doing so. You can use this ability only once per turn, regardless of how many Auspexes you have.
Signum (5 pts)	Leaders only. "Guiding the firepower of one's teammates is often more valuable than adding one's own bolter's voice to the chorus of destruction." Instead of shooting with this model in the Shooting phase, you may choose a friendly model within 6". That model has a BS of 2+ for that phase.
Master-crafted weapon (10 pts)	Leaders only. One of the owner's melee weapons gains +1 Damage. May not be applied to Armoury-specific weapons or those with "Master-Crafted" in their name.
Oath of the Crusader (3 pts)	Boots pound and blades sing as this space marine races toward the foe. This model is not slowed by terrain when charging.
Sacred Standard (12 pts)	This revered standard is more likely to be the subject of a search and rescue than a piece of wargear chosen for a kill team's mission. The bearer gains +1 Leadership and extends the range of its Inspiring Presence by 6", gaining a 6" Inspiring Presence aura if it is not a Leader model. If the bearer is slain, all friendly models within its Inspiring Presence at that moment gain an extra Attack for the remainder of the game, and the enemy receives an extra Victory Point if it was carried by the Team Leader.
Smoke Grenade (8 pts)	One use only. You may purchase more than one of this item per model. Instead of Shooting in the Shooting phase, you may choose a point within 8" of the bearer. Until the start of your next turn, enemy models must subtract 1 from their hit rolls when targeting friendly units with shooting attacks within 3" of the chosen point. Models can draw line of sight into and out of the affected area, but not through it.
Turbo Maximus (15 pts)	Biker or model with the FLY keyword only. Once per game, in the Charge phase, the bearer may roll 3D6 for charge distance and discard the lowest result.

++ Weapons of the Armoury ++

Unless otherwise stated, these items replace one weapon each of your choice, and each may be purchased only once per team. Their profiles are presented below.

Photon Beam (5 pts)	Techmarine Only. Essentially a parabolically focused searchlight, this weapon can be used to blind or even burn enemy soldiers. For an additional 5 points, this item can be taken without replacing any of the Techmarine's weapons.
Purification Vials (7 pts)	Apothecary Only. Filled with a pressurized toxic gas, these vials shatter on impact to release a deadly, choking cloud. One use only. Does not replace a weapon. You may purchase multiples of this weapon.
Soulstorm Staff (15 pts)	Lexicanum Only. Soulstorm Staves are planted atop a mountain on the empirically sensitive world of Hekaton, acting as lightning conductors for a year and a day before being retrieved. The Lexicanium can focus his psychic energy through this copper and adamantium staff, releasing it as a deadly bolt of living lightning. Replaces force weapon. Counts as a Force Stave and has an additional shooting profile (below).
Teeth of the Legion (5 pts)	Leader Only. This ancient pattern of chainsword is said to have been forged during the time of the Horus Heresy.
Kinetic Impactor (10 pts)	"It's like being kicked by a Titan"

Armoury Weapons Profile

Name	Type	Range	Strength	AP	Dmg	Abilities
Photon Beam (searing)	Assault 1	12"	5	-2	1	Any enemy model hit by this weapon suffers a -1 penalty to Hit until the beginning of your next turn.
Photon Beam (blinding)	Assault 4	24"	-	0	0	Any enemy model hit by this weapon suffers a -1 penalty to Hit until the beginning of your next turn.
Purification Vials	Grenade D6	8"	X	0	1	This weapon always wounds on a 2+, except against vehicles, which it wounds on a 6+.
Soulstorm Staff	Assault D6*	9"	4	D6-6*	1	*Take 6 away from the D6 roll for Strength to find the AP. E.g. if you roll a 4 for the number of attacks, the AP is -2. 1 attack results in AP -5, etc This weapon automatically hits its target.
Teeth of the Legion	Melee	-	+1	-2	1	Each time you make a wound roll of 6+ with this weapon, the Damage characteristic of that hit is increased to 3. Each time the bearer fights, if can make an additional attack with this weapon.
Kinetic Impactor	Melee	-	12	-2	D6	Instead of attacking normally in the Fight Phase, a model with a Kinetic Impactor may opt to make a single attack with this weapon against a model within Engagement Range.

PHILOSOPHIES

Space Marine teams have exclusive access to some Philosophies and Tactical Actions. Unless a restriction prevents it, you can mix those listed in this Opus with those in the Heralds of Ruin rules.

Remember you may only have one Philosophy at a time!

Unless they are also listed here, successor chapters may use their parent chapter's <chapter> only actions.

<p>The Emperor Protects: +1CP</p> <p>You may never use a Tactical Re-Roll.</p>	<p>The Hammer of the Imperium: +2CP</p> <p>If you are not the first player to use a Tactical Action, you lose 2CP</p>
<p>For the Primarch!: +3CP</p> <p>You may only use your own <Chapter> only Tactical Action.</p>	<p>The Old Guard: +1CP</p> <p>Your team contains no models with the PRIMARIS or SCOUT keywords</p>
<p>The First Company: +1 CP</p> <p>Your team contains only Vanguard Veterans, Sternguard Veterans or Terminators</p>	<p>Unseen Warfare: +1CP</p> <p>Your team contains only models with the SCOUT and/or PHOBOS keyword</p>

TACTICAL ACTIONS

<p>Bathed in Glory: -1CP Use at any time before the last Charge phase of a battle round. Choose a friendly model. Until the end of the battle round, that model counts as three models for holding objectives, but yields an extra victory point if killed.</p>	<p>Against the Odds: -1CP Use at the beginning of a Fight phase. Pick a friendly model that has more enemy models than friendly models within 2". For this phase, that model gains +1 attack and adds 1 to its hit rolls.</p>
<p>Battleforged Wisdom: -2CP Use at the end of a Fight phase in which your Leader killed an enemy character or at least 3 non-character enemy models. Roll on the Warlord Traits table in the rulebook or codex. Your Leader gains the corresponding trait for the rest of the game. One use only.</p>	<p>Sign of the Aquila: -1CP Use at the beginning of the enemy Charge phase. Choose a friendly model. The nearest enemy model within 12" must attempt to charge the model you chose.</p>
<p>Veteran Expertise: -1CP Choose up to two STERNGUARD, VANGUARD VETERANS or TERMINATORS. For this phase, this model gets +1 to his To Hit rolls.</p>	<p>Transhuman Physiology: -2CP Choose a model in your team. Until the end of the Phase, enemy unmodified Wound rolls of 1,2 or 3 always fail irrespective of modifiers.</p>
<p>Shadowed Pinions: -2CP <i>Raven Guard only.</i> Use at the beginning of your turn. Any models with FLY that arrive from reserves this turn have a 3+ invulnerable save this turn.</p>	<p>Grand Strategy: -1CP <i>Ultramarines Only.</i> Use during deployment to "skip" placing a model. Your opponent places a model as though you had done. You may use this Action multiple times during deployment.</p>
<p>Close Range Bolter Drill: -2CP. <i>Imperial Fists only.</i> Use during your turn. If a model scores an unmodified To Hit roll of 5+ when firing a Bolt weapon (anything that has the "bolt" word in its name) at half range or less it generates another attack with the same profile (roll to hit separately for this new attack). Further rolls of 5+ do not generate additional hits.</p>	<p>The Great Hunt: -2CP <i>White Scars only.</i> Use at the beginning of any Fight phase. Your team leader gets +1 Attack for every enemy model within 1" of it, and +2 Attacks if the enemy Leader is within 1". Each bonus attack must be allocated to the model that generated it.</p>
<p>Burning Zealotry: -2CP. <i>Black Templars only.</i> Use at the start of a battle round. For this battle round, the range of your Leader's Inspiring Presence and aura effects is doubled, and friendly models inside their Inspiring Presence are not slowed by terrain when moving or charging.</p>	<p>Flamecraft: -2CP. Salamanders only. Choose a model. For the next Shooting Phase, Flamer weapons counts as having rolled the highest amount of hits. Breath of the Forge counts as a Flamer weapon.</p>
<p>Flawless Cognition: -2CP <i>Iron Hands only.</i> Use at any time to choose the result of a single die instead of rolling it.</p>	<p>Newfound Might: -3CP. <i><Chapter> not listed above only.</i> Use at the beginning of any phase, during either player's turn. You must reroll all the dice rolls that resulted in a 1 for the remainder of that phase.</p>

Rites of the Space Marines

Boarding Honour (4 points)

Boarding actions are horrific, violent affairs. Momentum paid for in blood can be lost in moments and the press of bodies alone can kill. A battle brother with this honour strides through such circumstances like a god of war.

If this model and at least one other friendly model are within Engagement Range of the same enemy model, then this model may re-roll hit rolls against that enemy model.

Gunnery Honours (6 points)

Area-effect weapons tend to behave exactly as intended on the range. In an actual battle, explosions inexplicably creep around targets, divert through unseen obstacles or bounce entirely away from the target. A battle brother who can claim experience with such weapons has assuredly used them in the black heart of battle.

When this model fires a ranged weapon with a random number of shots, you can re-roll the die to determine the number of shots. The second result stands.

Fleet Command Laurel (5 points)

Within an Astartes chapter, the fleet occupies a curious position in the pecking order. It is mostly crewed by non-astartes, but its good running is critical. A battle brother in such circumstances must frequently interact with non-astartes and thus frequently has a grasp of politics and logistics far beyond that of his rank-and-file brethren.

This model's kill team gains a Command Point at the beginning of any battle in which this model participates. When it is set up on the battlefield, roll a d6 and add this model's Leadership. If the result is 12 or higher, this kill team gains a further Command Point.

Way of the Boltgun (7 points)

To say that an astartes knows his way around a boltgun is a disservice to both the astartes and his bolter. Every single battle brother will have fired thousands of rounds and spent hundreds of standard hours firing, cleaning and maintaining his personal weapon before he ever sets foot on the battlefield. This level of expertise often becomes less important as engagements escalate, but in the handful of seconds that firefights last in a kill team, this level of training can truly dictate the outcome of an encounter.

When this model is firing a Bolt weapon or the bolter component (and only the bolter component) of combi-weapons in the Shooting phase, treat any unmodified hit roll of 6+ as two hits.

Way of the Sword and Gun (5 points)

Midday firing rites are highly anticipated by the warriors of the astartes. Each cycle, the Chaplains and Techmarines will devise new tactical scenarios to test the abilities of each battle brother. These frequently involve weapon switching and approach drills.

In any turn in which this model charges an enemy unit that it hit with one or more ranged attacks during the preceding Shooting phase, then it may make an additional attack in the subsequent Fight phase. This bonus attack must be directed at the enemy unit that it hit in the Shooting phase.

Rites of War (15 points)

Space Marine kill teams are frequently manned by warriors that are unsuitable in either skill or temperament for elevation beyond sergeant. That said, occasionally, a leader with better prospects will often come into his own while fighting on a kill team.

(Leader only; must have SERGEANT Keyword) Friendly CORE units within 6" may re-roll hit rolls of 1.

CHANGELOG

- 22/07/20

- And so it begins, the Great Rewrite of our Age.
- Changed the Experienced rule to exclude CHARACTER and SERGEANT keywords
- Changed the CODEX: SPACE MARINES section to accommodate other more recent points publications like CA/FAQs etc. by referring to the latest publication instead of the Codex
- Chapter-specific "Super Doctrines" are no longer allowed. Regular generic Assault/Tactical/Devastator doctrines are still valid.
- RED SCORPIONS - Purity above all: now any SERGEANT can take the narthecium
- STAR PHANTOMS no longer add +1/-1 to reserve rolls since they no longer exist. Now they add +1 to Hit Rolls instead of rerolling
- SOUL DRINKERS: the "Cold and Fast" rule affects all Rapid Fire Bolt Weapons
- Points adjustments across the board
- Changed all the references of Tactical Points to Command Points. This was a pain.
- Auxiliary Ramjets now can be used whenever you want
- Sacred Standard down to 12 pts
- Smoke Grenades: removed the "can't be fired from a GL" since there's no more GL item in the armoury and it's not a weapon but an item with a specified range, so no RAWing your way into an intercessor Grenade Launcher thank you very much.
- Armoury cleanup: deleted the following items.
 - Relics: Shadow of Death, Banner of Black Reach, Blizzard of Inwit (i'm a sad panda), Combi-shotgun, Malleus Maleficarum and Sword Savant (Relics for BT are found in their own Opus), Heartseeker Lance, Drakescale Raiment, Enhanced Tactical Cognition
 - Armour Upgrades: Sanctified Warplate, Containment Field, Blessed Aquila, Larraman's Blessing, Peregrinus Targeter Helm
 - Additional Wargear: Auxiliary Grenade Launcher, Armorium Cherub, Hypercharger, Marksman's Honour
- I felt guilty removing so much stuff, so I added a new weapon to the Armory, the Kinetic Impactor. Mess with the genetically engineered monk, you get the bonk.
- Way of the boltgun: now works with all bolt weapons a la Imperial Fists
- General wording polish

- 06/10/20

- And so it begins, the SECOND Great Rewrite of our Age. Jesus.
- Teleport homer now refers to the rule in Codex SM
- CORE keywords where applicable
- Chainsword->Astartes Chainsword
- Iron Snakes Apothecaries now add +1 to heal a model
- You get 2 wounds, you get 2 wounds, everyone gets two wounds! (Except scouts, screw those hunchbacked midgets)
 - EDITOR'S NOTE: For scale reasons, we decided not to increment the Wounds count by 1 on Leaders taken from the Sergeant equivalent of a unit that got an increment (for example the Tactical Sergeant didn't get a 5th wound). This would be rather

detrimental on the scale and balance of the game. Look at the bright side, they're still cheap to take.

- Wings of Night now do a Smoke Launchers strat effect
- Phalanx Shield reworked. If you cannot find a wall, BE the wall.
- Apothecary reworded
